

Good Morning!

It's time for a new company! We have just formed Foley & Sharp, Inc. and we are still getting started.

Reen Foley & Roger Sharp Have Joined Forces...

to offer our years of experience in providing engineering services to our clients.

Our business plan is simple: create a repeat/referral client base through accurate, valuable assistance. We provide engineering services to meet our clients' needs, with highest regard for professional standards and business ethics. We work thoroughly to make informed decisions, and include our clients in the decision-making process.

President, Reen Foley, brings project management, software development and research skills to the company. Vice President Roger Sharp has over 30 years experience in transportation planning, travel demand forecasting, project planning and design.

News from England

Drivers passing through a quiet village in North Yorks have been left baffled by a street that has 45 road signs in just half a mile. The RAC [Royal Automobile Club] said it was "astonished" at the number of signs on Low Street, in South Milford, near Selby - **The Daily Telegraph** - For full article [click here](#).

Now that we are in business we are ready to help. Need a traffic study or a driveway permit? Need data collected and analysed? Need a report reviewed and edited? Need a speaker for a lunch or dinner meeting?

Please visit us at www.sharpfoley.com or give us a call.

Sincerely,

Foley & Sharp, Inc.
